Professional Summary

IT professional with **6+ years of overall experience**, including enterprise IT support, cloud infrastructure support, identity & access management, endpoint support, and team leadership. Proven ability to **build support functions from the ground up** – including SOP authoring, team onboarding, and operational framework design. Certified in **Microsoft Azure (AZ-900 & AZ-104)** with strong knowledge of **Microsoft Entra ID, Microsoft Intune**, and hands-on experience with **CyberArk PAM, ServiceNow ITSM**, PingOne, SecureDoc, and enterprise IAM platforms. Strong background in ITIL-aligned incident management, root cause analysis, and delivering high-quality technical support to global enterprise clients. Seeking a **Cloud Infrastructure or Cloud Support Engineer** role at a world-class technology organization to drive operational excellence and service reliability at scale.

Technical Skills

Cloud & Identity: Microsoft Azure (AZ-900, AZ-104), Microsoft Entra ID, Microsoft 365 Admin Center, PingOne MFA/SSO, CyberArk PAM, Entrust PKI, BeyondTrust Bomgar

Endpoint Management: Microsoft Intune (MDM/MAM, Device Enrollment, Compliance Policies, App Protection, Conditional Access, Remote Wipe), Windows Autopilot

Operating Systems: Windows 10/11 Enterprise, Windows Server, Linux (Ubuntu/CentOS)

ITSM & Service Management: ServiceNow (Incident, Problem, Change, CMDB, KB Management, Dashboard & Report Building), SLA/KPI Management, ITIL v4

Security & Compliance: SecureDoc Full-Disk Encryption/Decryption, Privileged Access Management, MFA Enforcement, Conditional Access, Zero Trust Principles

Enterprise & IAM Tools: Active Directory, Merlin Portal, Lift Portal, MyID, PingOne, VPN Configuration

Scripting & Development: Python, SQL, HTML/CSS, C/C++, Bash (basic), GitHub

Collaboration: Microsoft Teams, SharePoint, OneDrive, Zoom, Google Workspace

Core Competencies: Root Cause Analysis, SOP Development, Knowledge Base Authoring, Team Leadership, Quality Audits, Escalation Management, Reporting & Analytics

Professional Experience

HCLTech (Client: IHG Hotels & Resorts)

Mar 2026 – Present

Senior Specialist – IT Infrastructure & Remote Support

Gurugram, Haryana

- **Greenfield IT Support Project:** Joined as a founding team member of a newly launched IT support engagement for **IHG Hotels & Resorts**, a leading global hospitality group, contributing to the setup of support operations, team structure, SOPs, escalation processes, and go-live readiness.
- **Team Leadership:** Lead and mentor a team of **5 Service Desk Advocates/Analysts**, providing technical guidance, coaching, quality reviews, and performance feedback to ensure consistent support delivery and adherence to SLA/KPI targets.
- **SOP Knowledge Management:** Designed, authored, and maintained project SOPs, runbooks, and ServiceNow Knowledge Base articles covering access provisioning, password reset workflows, encryption processes, remote troubleshooting, escalation paths, and tool-specific procedures to improve first-call resolution and team productivity.
- **ServiceNow Dashboard Creation:** Designed and built custom **ServiceNow dashboards** to track real-time incident volume, SLA/KPI compliance, ticket aging, and agent performance, giving leadership improved visibility into team and service health.
- **Reporting & Analytics:** Pulled and analyzed key reports from ServiceNow – including **Total Incident Report, CSAT/DSAT Report**, and **Production Report** – to monitor service quality, ticket trends, and team output, and shared insights with leadership.
- **Team Briefings & Coaching:** Conducted regular briefings with the team based on report and CSAT/DSAT insights, highlighting recurring issues, SLA risks, and targeted improvement areas to drive consistent performance gains.
- Provide advanced end-user and remote IT support for Windows issues, application failures, system slowness, network connectivity, hardware-related incidents, and business application troubleshooting across global hotel users.
- Handle endpoint encryption and recovery workflows using **SecureDoc**, including challenge-response support, encryption/decryption assistance, and secure login troubleshooting.

- Work with privileged access and secure credential workflows using **CyberArk PAM**, supporting controlled access, password management, secure administrative operations, session validation, access control checks, compliance verification, and policy-related troubleshooting.
- Monitor ServiceNow incident queues, prioritize business-critical issues, ensure proper ticket documentation, and coordinate escalations with resolver groups and cross-functional teams.
- Conduct Root Cause Analysis (RCA) for recurring P1/P2 incidents and implement preventive actions to reduce repeat issues and improve operational stability.
- Perform ticket quality audits to ensure ITIL process compliance, accurate documentation, proper categorization, and effective resolution notes.
- Facilitate weekly team meetings, refresher training, coaching sessions, and process improvement discussions to improve service quality and operational efficiency.
- Ensure adherence to ITIL best practices, security policies, compliance standards, and customer experience goals while driving continuous improvement across the support function.

Infosys BPM Ltd. (Client: Cummins Inc.)

Oct 2025 – Feb 2026

Senior Technical Support Executive

Pune, Maharashtra

- Delivered Tier 1/2 enterprise IT support to Cummins employees globally via ServiceNow, inbound calls, and live chat, maintaining strict SLA compliance and ITIL-aligned ticket management.
- Resolved complex incidents involving **Active Directory** (account lifecycle, group policy, OU management), **Microsoft Entra ID / M365**, VPN, MFA, Software Center, and enterprise application access.
- Acted as Subject Matter Expert (SME) for access provisioning, de-provisioning, and application troubleshooting; mentored junior analysts on P1/P2 handling and SLA adherence.
- Authored and maintained **ServiceNow Knowledge Base (KB)** articles to enable first-contact resolution and reduce recurring incident volume.
- Proactively monitored SLA compliance dashboards, flagged at-risk tickets, and coordinated timely resolutions to prevent SLA breaches on business-critical requests.
- Documented RCA findings in ServiceNow for recurring issues and presented improvement recommendations to senior service desk leadership.

Teleperformance (Client: Microsoft)

Aug 2024 – Sep 2025

Technical Support Executive – Microsoft Cloud & Windows

Jaipur, Rajasthan

- Provided Tier 1/2 support for **Microsoft 365** (Outlook, Teams, OneDrive, SharePoint), Windows 10/11, and Microsoft Accounts for a global customer base across North America, EMEA, APAC, and LATAM.
- Resolved cloud-based issues including OneDrive sync failures, Teams federation problems, M365 licensing/activation, and tenant-level identity and access issues.
- Handled MFA failures, password resets, identity protection events, and VPN/firewall configuration for enterprise and consumer customers.
- Achieved **95%+ CSAT** consistently through empathetic, solution-focused support delivered via chat and email across time zones.
- Managed P1 escalations to product engineers and security teams; collaborated with QA and Escalation Desk on high-complexity cases.

My Branch Services Pvt. Ltd.

Dec 2022 – Aug 2024

Centre Head – Operations

Ranchi, Jharkhand

- Led multi-branch operations, managed client escalations, and coordinated cross-functional teams to maintain SLA-driven service delivery standards.
- Developed strong stakeholder communication, operational reporting, and team management capabilities directly transferable to enterprise IT environments.

Concentrix Daksh Services India Pvt. Ltd.

Sep 2019 – May 2022

Transaction Advisor – International Support

Ranchi, Jharkhand

- Delivered high-quality voice and chat support to international clients, maintaining consistent quality metrics and customer satisfaction in a high-volume BPO environment.

Education

Marwari College, Ranchi (Ranchi University)

2022 – 2024

Master of Computer Applications (MCA)

70.38%

Doranda College, Ranchi (Ranchi University)

2019 – 2022

Bachelor of Computer Applications (BCA)

78.6%

Certifications & Courses
